

CHAPTER V

CONCLUSION

There are two problems that can be analyzed by stylistics, that are language discourse and in literary discourse. In language discourse there are four type of devices, two of them are Syntactic Devices which the types are simple sentence, complex sentence, compound sentence, and compound complex sentence, and semantic Devices which the types are *Makna Leksikal dan Makna Gramatikal* (Lexical and grammatical meaning), *Makna Referensial dan makna nonreferensial* (Referential and nonreferensial Meaning), *Makna denotatif dan makna konotatif* (denotative and connotative meanings), *Makna kata dan makna istilah* (meaning of words and meaning of term), *Makna konseptual dan makna asosiatif* (conceptual meaning and associative meaning), *Makna idiomatikal dan peribahasa* (idiomatikal and proverbs meaning), and *Makna kias* (figurative meaning).

This thesis had analyzed the President Susilo Bambang Yudhoyono's speech at 46th anniversary of GOLKAR party and at Pancasila Day, June 1st 2011, by two kinds of stylistics devices; there are Syntactic and Semantic Devices. Based on the statement problems the result of the analysis can be concluded, as follows:

5.1 The kinds of semantic devices used in President Bambang Yudhoyono's speeches.

From the kinds of semantic devices analysis, President Susilo Bambang Yudhoyono mostly used Grammatical meaning and word meaning by the number of sixteen and fifteen.

5.2 The kinds of syntactic devices used in President Susilo Bambang Yudhoyono's speeches.

That the most frequencies of syntactical devices that used in President Susilo Bambang Yudhoyono' speech is compound complex sentence by percentage of five numbers and compound sentence of four numbers.
