CHAPTER V

CONCLUSION AND SUGGESTION

There are some points that detailed in this chapter. They are detailed of the conclusion and suggestion about the results of the study. The conclusion is a result get from data analyzes to answer the questions research. The suggestion is the benefit from the research for some particulars.

5.1 Conclusion

Based on the result of the study, the researcher concluded the implementation of running dictation to improve students reading comprehension in English recount text in the eighth grade students' of MTs.Sunan Ampel Kedamean Gresik had been well. The students were motivated more in reading and easier understand English text.

The students' responses were good; the students became more active in reading class. They were really enthusiastic to read by running dictation strategy because they more fun in this activity. The guidance and explanation of the teacher given really helped them reading actively. The students agreed that the implementation of running dictation in teaching reading was very helpful to overcome the students' difficulties to read and understand the text. It gave positive effect on the students' reading comprehension skill.

Based on students' reading comprehension result after the implementation of running dictation, the percentage of students' mastery criterion (KKM) was 75%. It means that they have had passed the minimum mastery criterion (KKM) that is 75. So, by implementing running dictation in teaching reading was success. The students' have chance to be active and cooperative in reading activity.

5.2 Suggestion

Related to this study, the researcher would like to give some suggestions as follow:

a. For the teacher

The teacher should do the teaching activity based on the procedures of the strategy used, especially at running dictation strategy that the teaching and learning activities can run optimally. In the teaching reading, it would be effective if the teacher applies kind of media or teaching aids which can support the material and relevant to the learning objectives.

b. For the students

The students' should be more enthusiastic in learning English especially in learning reading. It will be carried the students' to improve their reading skill. Reading comprehension is important to beginning of learning English. So, students must practice more for it.

c. For other researchers

It is suggested to other researchers to create an interactive strategy for improving students reading comprehension skill in implementing running dictation strategy.
