Comment :

There are some points didn't do by the teacher; these are in the pacing and giving compliment step. Teacher used the theme Jakarta's governor election only in the role play section. It means, it was not the continuous and flexible material.

Comment :

Teacher didn't do the first three steps because the meetings are scheduled in a day.

Teacher didn't do discussing a video because the time is not enough to do a role play. The researcher found that the students were getting tired in a long meeting, so the teacher give them a break time for several minutes. They permitted to drink.

1. What is the meaning of hypnoteaching based on your opinion?

Hypnoteaching is the teaching strategy purposed to make the students enjoy the learning at class using their unconscious mind. It means the students are in manipulating mind, not sleep as we seen on the magic TV program.

2. Why have you are interested to apply this method in your English speaking class?

Because the learning method is always innovate. I think that hypnoteaching is the new one and it is acceptable to apply in my speaking class.

3. How long you applied this method on your speaking class?

I have applied this method on my speaking class since 2012.

4. What are the steps in applying hypnoteaching method in your speaking class?

There are some steps in applying hypnoteaching method. The first step is intention and motivation. Intention used to interest the student and get their attention by explaining the concept. This step is the time to know the student's curiosity. Then, i give the students a motivation to arise their self-confidence because they will do a role play. After that, I use apperception to clarify student's knowledge about the material. I ask them a simple question to get their previous study. I also do brainstorming to collect their data about the material. The next step is the main activity. I start to inspire them by telling them a short motivation story. Then I use some kinds of hat as a media to bring them in unconscious mind. I give the instruction to do a role play with the hats. The students allow to practice before perform in front of the class. The next activity is doing a role play. Students in a group perform in the class and the

others pay attention. In the end of the role play, I give them appreciations. I give them a conclusion of the activity. Generally, the steps of hypnoteaching are not doing in order but by the timing. Because when one step is failed to do, it should be restart.

5. What are the problems in applying hypnoteaching method in your speaking class and how does your strategies to solve these problems?

There are some problems in applying this method. The problems were not enough time to do the entire lesson plan and the steps of hypnoteaching were not done by organized. To solve the first problem I skip discussion video section and to solve the second problem I adjusted the time with the next activities. In the other sides, the student's problem was they were demotivated to learning speaking. As the solver, I used hypnoteaching by role play with the theme Jakarta's Governor election.

6. What is your suggestion to another teacher who will apply this method?

To applying this method, teacher should belief in them. Teacher must believe that the students are capable. It is very important to understanding the student's characteristics. Hypnoteaching will successful to do if the teachers are perceptive, especially in time management. Avoid the nWatitive word or act in the class. Hypnoteaching is not like a fun learning which is using the cognitive games. It is the mind game on the learning speaking. So, we need to heedful to the student intensively.
