

CHAPTER V

CONCLUSION

This chapter will present the findings and conclude what the thesis writer has analyzed in chapter III. There are many symbols in the “When You Tell me That You Love Me”, “If We Hold on Together” and “Endless Love” by Diana Ross. They are traditional or conventional symbol and contextual symbol. The traditional or conventional symbol such as clouds has meaning sorrow or sadness, the wind has meaning soul and etc. But, the contextual symbol such as “There’s only you in my life” has meaning Love to only one person forever, “The only thing that’s bright” has meaning The girl is the support of the man life and etc.

Based on the meaning of the symbol, the writer can interpret those songs. From the “When You Tell Me That You Love Me” song the writer explain that he sacrifice to get the woman love. He ready to conduct any kind of obtain to get sympathy from that woman. He volunteer do improbability can be obtained. Though that done can hurt himself. He volunteer do all request of that woman. Such as call the stars down from the sky, live a day that never dies, hold you close under the rain, and change the world only for you. Love can become the light for someone is falling in love. The man will become the hero in the woman life. He volunteer give all that is wanted by someone who love of. He always ready resides to consort whenever and wherever. He very loves his couple life till the end of life. His stronger love will defeat everything around him. We have to show our love to someone lover, so she knows how deep our love to her. We have to realize all insufficiency and his

excess. He will be feel loneliness, if she does not beside him. The sadness will be lose and change into happiness, if she beside him. This expression can we see from “You walked into my life, To stop my tears, Everything’s easy now, I have you here. We can take value that the stronger of love can give support in someone life. Without the love our life will be emptiness. As in our family, if we always love each other, take and give with each other. We will feel peaceful.

In the “If We Hold on Together” the writer explain that the way of life are the dreams of life. Everyone have many dreams, hope and the glory. Because, human is perfect creature and as social creature. We live in a community. We have to earn cooperatively in society of life. So, we may not be lose heart of life because, our life will walk unidirectional of rotator time. The journey of our life is so far and long. We may not throw the time with something useless. We must keep believe to our God. The God will give wonders to us if we hold to the truth in our heart. The faith, hope and glory will we get it. There are many barricades and barriers in human life. Sometimes, we feel sadness and happiness. Everything will be able gotten easily, if we always together. But, before that we have to know what dreams are going to get it because, the dreams are an expectation in life. We have to able faith against. The balancing in our life between the body and soul is important. We can keep our body with healthy, but to keep our soul we have to believe and pray to our God. The blessing of God can make our soul feel happiness and peaceful. And as a human, we must able to choose the way to get our dreams. We have to optimism that the future will be better than the past because, if we are in the sadness, we will feel something lose from our life. It is a support of life. So, we try to find it. After we get it, we

will be out from the sadness and find our dreams. The dreams will be support our life. That thing can happen at everyone.

The last interpret is “Endless Love” song. Its interpretation about the man whose wants to show his love to his girl friend. The girl is the only one in his life. She is the one of spirit in his life. He is very loves her. The writer shows how deep his love to the girl with the symbol “There’s only you in my life, the only thing that’s bright”. The girl loves him, too. She loves him very much. So, she feels the man always in her mind every time and everywhere. “You’re every breath that I take. You are every step I make”, it mean that she is always remember him. The girl is the one of his love. He wants to share his love to her. No one else can replace her in his life. True love can be seen for her eyes because the sight can’t lie. The girl is very responsive to his love. The man shows his love again is the first and the last for her. This love is his endless love. Two persons have same perception in their life. They want to life together as a husband and wife. They want to make a family and life together until the end of their life. They will experience life together until the end of their life. The man will holding responsible to the girl. Because she is his part of live. He will accept her with all of badness and goodness. The man never mind what people say. He does his life seriously with his part life. The man will give everything to the girl. She will be the one because they will get married and make their life as a family. No one can deny her. This love is their endless love.

Those symbols use the nature things. Because the nature is very near with people. And, it is made for human being. We can learn from the natural events. For example mount erupt. Before happen the eruption the animals in that mountain look for save place. So they

come to the village. But the human does not understand with it. So, we must learn from it.
And we have to remember to our god and keep believe to Him. The God will give wonders
to us if we hold to the truth in our heart. The faith, hope and glory will we get it.
