From the swear words above, it was found 7 (seven) out of 8 eight types of swear words that based on Wardaugh suggestion. There are 8 swear words in sex term, 1 swear words in death term, 2 swear words in excretion term, 9 swear words in bodily function term, 1 swear words in religious matter term, 2 swear words in mother in law, and 6 swear words in certain game animal term. Besides, 3 swear words are not suitable with any kind of type that Wardaugh suggested, and then they putted as anothers term of swear words.

After analyzing the finding, it was found that undergraduate students of Engineering College in Surabaya seems to use swear words a lot to display closeness in friendship (8 times) than the other intention of the students in their

conversations. Besides, it was found from recorded conversation that undergraduate students also use swear words to express their negative or positive emotions (7 times), to express humor (6 times), to tell story (5 times), to deny (2 times) , to comment about social (2 times) and the last to insult (2 times). In addition, the purpose of to talk sex, it was not found during recording but based on questionnaire, 9% of 65 students use swear words to talk sex.

Therefore, it can be concluded that swear words has become a common thing among undergraduate students in present and that it is not a big deal when they are used.They do not think that it is offensive and impolite anymore. Because generally they swearing among their friends to show their friendliness or express a humor.

5.2 Suggestion

Swear word is a part of our language, it is not bad at all but when we understand the purpose of swearing, hopefully it can reduce misunderstanding about swearing. Although it has negative and positive purposes, better for us not to use swear words in our daily conversation. It is not only harmful people but the meaning itself has negative connotation. And for final word, hopefully this paper can be one of reference for any student who interested in an analysis about “swear words”.
