

CHAPTER III

METHOD OF THE RESEARCH

In this chapter presented about the process of the researcher to collect the data and finding the problem step by step. It is about object the study, (1) The Nature of Research, (2) The Source of Data, (3) Method of Data Collection, (4) Technique analysis.

3.1 The Nature of Research

Research is a logical systematic search for new and useful information on a particular topic (Bachtiar in Sari, 2014:8). In the process of compile the data, researcher categorized the research into two, namely descriptive and qualitative research. Based on Kowalczyk (2015:1), descriptive research is research design to describe in accurate way. It takes from fact and the living one phenomenon on speaker. There are three ways to do a descriptive research, they are observational, case study, and survey. In this research as descriptive to describe how the Figures of Speech contribute to the beauty and message in the songs using observational way. According to Denzin and Lincoln in Sari (2014: 9), qualitative research is the research which uses scientific background to explain the phenomenon which happened and the research involved other

method. Qualitative research usually collects some of type the data to answer the research question by interview, observation, and documentation. In this research, the data are not in members but in words, phrase, or sentences.

Regarding the nature of research and the type of data being gathered, this research is descriptive qualitative research.

3.2 The Source of Data

The source of the data in this research is the lyric's song of Westlife. While the data are words, phrases and sentences taken by the lyric' song of Westlife. The songs used as the sources of data of this research are as follows:

	Title	Album	Published
1	Soledad	<i>Coast to coast</i>	2000
2	I have a dream	<i>Westlife</i>	1999

3.3 Method of Data Collection

In the process finishing the research problem, there are some methods that researcher used in this research. The methodology is steps how one will go to studying any phenomenon with general approach to studying a research topic (Silverman in Sari, 2014:8).

In the process of finding the research, the researcher method is;

- (a) Finding the figures of speech,

(b) Interpreting the use of the Figure of speech and find the contribute to the beauty and message in the songs.

3.4 Technique Analysis

The data of this research are collecting following steps. The technique to get the data analysis of the researcher is;

1. Reading and understanding two lyric songs popularized by Westlife
2. Choosing the expressions of this phrases, clauses, sentences which consist of figure of speech
3. Finding and describing the contribute message in these song.
