

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter presents the conclusion and suggestion. The conclusion reflects the students improvement in learning descriptive text by using jigsaw method with selfie picture as the learning medium. The suggestion contains the advice for the teachers, students, and other researcher. Hopefully, It can be beneficial in the future.

5.1 Conclusion

Based on the purpose of the research which is to improve students' ability in writing descriptive text, it can be concluded that this study is success. There is an improvement in the ability of students in writing descriptive text through jigsaw method with selfie picture as the learning medium. This conclusion is also related to the research question mentioned in chapter one. This conclusion is shown from the real state of the research:

- 5.1.1 The first, there is improvement of student's score. It can be seen through the results of the students pre and post score. The mean score of pre-test is 61.4 while the mean score of post-test is 80.5. The improvement was 31.1% with 86.6% of students who passed the KKM. From those result, it can be seen that research using jigsaw method with selfie picture as medium learning is run well.
- 5.1.2 The second, The improvement of students' ability can be viewed through observation, interview, and questionnaire. There is an improvement in students spirit in learning. They are very enthusiastic and motivated learning by using jigsaw method with selfie picture as the medium learning. They were not bored and sleepy again in learning English. This improvement indicated of the success research.

5.1.3 To sum up, This improvement is proven that the implementation of jigsaw method using selfie picture as learning medium has been successful.

5.2 Suggestions

Based on the results of the research. There are advantages and disadvantages which can be useful for teachers, students for the other researcher.

5.2.1 For the teachers

Teachers should be creative. It means creative in making learning media, using fun techniques and methods in order to make students interested and motivated in learning English. They will feel enjoy and not bored. It can give affect for their score.

5.2.2 For the students

The students should be creative, pay attention when the teacher explains and ask when they do not understand. Moreover, they must study hard. It is by learning the next lesson material that will be teach by teacher. Then do the exercises and practice. It will give the effect to the student learning score.

5.2.3 For the other researcher

If other researchers want to conduct a research on the same topic with different disciplines, They can use this research as a reference. Other researchers should read comprehensively in order to understand the contents.
