

## **CHAPTER V**

### **CONCLUSIONS AND SUGGESTIONS**

#### **5.1 Conclusion**

From the result, the research can get a conclusion from the application of movie to enhancing students motivation in speaking. When the teacher played the movie, students pay attention the movie that had been played by the teacher. Then, he gave task to students that was retell the contents of movie but with different own idea so, the result is students can retell the content of movie simply with the vocabulary that they had.

The enhancement students motivation in speaking using movie can be seen from the students assessment and the students responses or questionnaire after learning that had been completed. From the conclusion of the first cycle until the second cycle the average score of students has increased. The first cycle the teacher assessment used the rubric score that according to brown with 5 aspects are grammar, vocabulary, comprehension, fluency and pronunciation. The average score in the first cycle of the students are 60.19 which mean the score of students was still below the KKM while KKM which has been set by the school was 70.00 so in the first cycle there was no improvement in their speaking. Furthermore, the second cycle, the teacher assessment used same rubric score with the first cycle. In the second cycle, the students has increased the average score of the students are 78.09 which means the score of students already above the KKM. The students responses using movie in speaking are the students felt interested, confidence and help the students to understand the material well.

#### **5.2 Suggestion**

Based on the researcher, there are some suggestions that can help English teacher or the next researcher in order to improve their speaking by using movie as the students motivation..

### **5.2.1 Suggestion for English Teacher**

Teachers should give more motivation that can motivate the students because this research can be concluded if the students really need some motivation by the teacher in order to build their confidence when speaking English. One of them, by giving some motivation to students and English teacher also must able to control the class in order the class were not noisy.

### **5.2.2 Suggestion for Students**

The students need to learn more about English lessons and also have to practice a lot of English speaking. In order the students more confidence when speaking in front of the class or in public.

### **5.2.3 Suggestion for Researcher**

For the next research, the researcher better apply students motivation using movie it just not in speaking skill but in other skill of English.
