

CHAPTER III

RESEARCH METHODOLOGY

This chapter presents about qualitative research which is used in this study and it consists of some parts. The first part explains about the meaning of qualitative research. The second tells about methods of qualitative research. The third mentions research data. The fourth describes the data analysis.

III.1 Qualitative Research

This study focuses qualitative research to analyze collected data from the sources. Qualitative research is descriptive. The data collected are in the form of words or pictures rather than numbers. The results of the research contain quotations from the data.

The researcher can get point from the theory above that qualitative research must have collected data in the form of words rather than numbers and the result contains some quotations from the data of the research. It means that the researcher must analyze the data and formulate the result of the analysis.

III.2 Research Methods

This research reveals the method of analyzing problem in this study. It applies Library research method, because it doesn't evokes the field work, and library research is an experiment by a reseacher in workroom or in libraries to

get the information of the object's research with using books, references, and another audio-visual.

III.3 Research Data

Generally, the data presents two sources, they are main data and supporting data.

III.3.1 Main Data

The data in this research is taken from D. H. Lawrence's *Lady Chatterley's Lover*, which only concern to analyze the main character in the novel. After studied about the psychoanalysis theory and some theory of love, the researcher will analyze the main character's love as her personality based on psychoanalysis by Sigmund Freud and some theories of love in the next chapter clearly.

III.3.2 Supporting Data

The supporting data of the study is taken from some references about the novel, theory of love and psychoanalysis, articles, bibliography of the author and internet resources.

III.4 Data Analysis

There are some steps that will be applied to analyze Constance Chatterley's love in this case. The procedure of the data analysis are:

1. Read and comprehending the D. H. Lawrence's *Lady Chatterley's Lover*
2. Comprehending the characters in D. H. Lawrence's *Lady Chatterley's Lover*
3. Comprehending the structures of personality based on psychoanalysis.

4. Comprehending some theories of love by Robert Stenberg and Fransessco Alberony clearly.
5. Comprehending the main character's from *id* in D. H. Lawrences's *Lady Chatterley's Lover*
6. Comprehending the character's from *ego* in D. H. Lawrences's *Lady Chatterley's Lover*
7. Comprehending the character's from *superego* in D. H. Lawrences's *Lady Chatterley's Lover*
8. Make the conclusion from the data analysis.
