

CHAPTER III

RESEARCH METHOD

This chapter presents research methods that are applied in this research. It contains the research design, source of data, research procedure and data analysis method

3.1 Research Design

The qualitative research is used for writing this thesis. It means that the research method only describing the internal conflict of Eveline and analyzing the failure of self-actualization of Eveline using conflict theory and also self-actualization theory of Maslow as main theory.

3.2 Source of Data

The source of data is a short story Eveline by James Joyce which is associated with several references from internet, book of motivation and personality, and others as a basis for analysis.,

3.3 Research Procedure

In this research, the procedure for data collection is implemented in three steps: First, reading the short story Eveline intensively, to get a deeply understanding about the story. Second, identification of the main character and her personality. Then the third is searching or finding some references from the library, internet sites, etc that related with the topic.

3.4 Analysis of Method

In analyzing data, there are some steps in order to be able to give the maximal result in this study. They are:

3.4.1 Understanding and comprehending the content of the story of Eveline.

3.4.2 Quoting the evidences.

3.4.3 Identifying the conflict in the main character of Eveline.

3.4.4 Explaining the conflict inside the main character which is presented in the short story.

3.4.5 Analyzing the influence of Eveline's internal conflict to the failure of her self – actualization.
