CHAPTER V

CONCLUSION AND SUGGESTION

In the last chapter in the writer is closure. It contains conclusion and suggestion.

5.1   Conclusion

Register differentiated in the following types: Oratorical or frozen (raw), that registers are used by a professional speaker and the rule because the pattern already established, usually used in situations solemn, like the mantra, law, scripture, and so forth. Deliberative or Formal, that is registers are used mainly in formal situations in accordance with the purpose of expanding the conversation accidentally, for example the state speech, making a proposal, and so on. Consultative or Business, which is register used in the transaction state and so on.Casual or relaxed, that registers are used in informal situations. Register is language variation used by a health workers in Anwar medika hospital to express purpose in the factors that Affect Register. From the data analysis, the writer concludes essential points is health workers in Anwar medika hospital more often use the register Consultative and Intimate.

Based on the context of the conversation between the members of the profession who are in Anwar Medika hospital, that there is the use of the term registers, especially in the work every day. There are classes of words, phrases, and abbreviations.

One of the most analyzed areas where the use of language is determined by the situation. Especially in language, the term "register" often forms a

shorthand for formal/informal style. while defining "registers" more narrowly as specialist language use related to a particular activity. Register used to health workers due for professional should be able to speak each other profession in order to protect the privacy and confidentiality of patients and protecting the rights of patients to keep privacy of others. Register is a variation of the language in terms of its use or function. Register is the use of a special vocabulary associated with this type of work as well as a particular social group. So register is closely related to language variation with respect to its use or function, that is a person's job.

In the process of the formation of language register terms in hospital have a function as a protector to protect fellow health professionals. So that communication remains smooth and there is no one who is not an expert (medical profession) is misusing as the wrong language and can ultimately harm the patient or others. Registers used by doctors, nurses or midwives and medical personnel in the scope of work in the hospital Anwar Medika, because the factor that affect register (field, mode and tenor) and the occurrence of diversity or to variations of this language is not only caused by the speakers that are not homogeneous, but also because of the social interaction activities they are doing is very diverse. Each activity requires or leads to a diversity of languages. The establishment of terms of words, phrases, abbreviations and acronyms abbreviation form is usually used as functions for fellow profession easily established quickly, maintain the confidentiality or privacy disease patients from other people and strengthen the identity of workers.

5.2 Suggestion

Based on the result of the writer, the writer will give some suggestions.

For the Readers, The writer hopes that the readers would not be confused if they often goto the hospital or to a place of treatment or other Health clinics. They will understand and know about the meaning of such term used. Further, the readers could improve their knowledge about others language that appears in society especially language used in hospitals.

For Others Writers, this writer could be one of the references in studying further about language variety especially on the register and the writer hopes that there will be some writers who will study about the register in other fields. It is also beneficial for the other writers to enrich the vocabulary in register by conducting more writeres in the other field. Furthermore, any people can use this writer as one of their references.

The last point, hopefully this writer can help as much as possible for them.
