

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the conclusions and suggestions based on the research finding in the previous chapter.

5.1 Conclusion

The result of the analysis describes the swearwords used by youth of Mojokerto in communication. It is obtained from the data by listing of swearwords usage, associating with them, and observing in relationship.

In fact, those swearwords used by youth of Mojokerto are for communicating in daily speaking. According to the statements of the problems in previous chapter, so it could take three conclusions.

First, the words and phrases they use. **Second**, it depends on the situation and condition setting of place. Moreover, it is not always the youth employ swearwords to the all of people, such as their parents, teachers, or older person. **Third**, it express youth feeling (for persuading, for mocking, for tempting, for emphasizing emotion), or giving an indication about a very closer friendship. So that all conclusions, which are for answering the problems.

5.2 Suggestion

The thesis, according to the conclusion above, is hoped could attract and give the reader information about language variety, especially swearwords used by youth of Mojokerto in communication, and it could enrich sociolinguistic knowledge. Moreover, for the last, by means of this thesis, all of the readers are interested or hoped to write about sociolinguistic thesis.
