You have been selected as a potential reviewer of the following submission. Below is an overview of the submission, as well as the timeline for this review. We hope that you are able to participate.

Article Title

Family Experience During Patient Assistance Process in General Intensive Care Unit: Phenomenology Study

Abstract

BACKGROUND: Intensive Care Unit (ICU) treatment can lead to fear, anxiety, depression, panic and tension in the family. Place of the family as active presence, guardian, facilitator, historian and coaching of the family cannot be separated from the recovery process. During the assistance of ICU patients, the family is faced with a strange environment, strict rules, emotional stress, and everyday life changes that have caused them to encounter psychological and physiological concerns.

AIM: To explain and understand of the family's experience during assistance patient in the ICU.

...logical methodology is used to analyze experience of family. In-depth interviews were performed with 9 family
