Risk factors for falls in older patients with cancer.

Zhang X, Sun M, Liu S, Leung CH, Pang L, Popat UR, Champlin R, Holmes HM, Valero V, Dinney CP, Tripathy D, Edwards BJ.
BMJ Support Palliat Care. 2018 Mar;8(1):34-37. doi: 10.1136/bmjspcare-2017-001388. Epub 2017 Aug 31.
PMID: 28860112
Seventy-seven (35.8%) patients had at least one **fall** in the preceding 6 months. Functional impairment ($p=0.048$), frailty ($p<0.001$), dementia ($p=0.021$), major depression ($p=0.010$) and low **social support** ($p=0.045$) were significantly associated with the **fa** ...

Combining Motivational and Physical Intervention Components to Promote **Fall**-Reducing Physical Activity Among Community-Dwelling Older Adults: A Feasibility Study.

McMahon SK, Wyman JF, Belyea MJ, Shearer N, Hekler EB, Fleury J.
Am J Health Promot. 2016 Nov;30(8):638-644. doi: 10.4278/ajhp.130522-ARB-265. Epub 2016 Jun 16.
PMID: 26389979 **Free PMC article.** Clinical Trial.
INTERVENTION: Ready~Steady combined two components: (1) motivational (motivational **support**, **social network support**, empowering education), and (2) **fall**-reducing physical activities (PAs; guidance to practice leg-strengthening, balance, and flexibility ...

Impact of **Social** Network on the **Risk** and Consequences of Injurious Falls in Older Adults.

Trevisan C, Rizzuto D, Maggi S, Sergi G, Wang HX, Fratiglioni L, Welmer AK.
J Am Geriatr Soc. 2019 Sep;67(9):1851-1858. doi: 10.1111/jgs.16018. Epub 2019 Jun 26.
PMID: 31241183
OBJECTIVES: A smaller **social** network is associated with worse health-related outcomes in older people. We examined the impact of **social** connections and **social support** on the **risk** of injurious **fall** and on **fall**-related functional dec ...

Effect of **fall**-related concerns on physical, mental, and **social** function in community-dwelling older adults: a prospective cohort study.

van der Meulen E, Zijlstra GA, Ambergen T, Kempen GI.
J Am Geriatr Soc. 2014 Dec;62(12):2333-8. doi: 10.1111/jgs.13083. Epub 2014 Nov 29.
PMID: 25438609 Clinical Trial.
Five outcome measures representing physical, mental, and **social** function were included: activities of daily living (ADLs), symptoms of depression, feelings of anxiety, **social** participation, and **social support** interactions. ...From a clinical point of v ...

Addressing individual differences in mobility transition counseling with older adults.
 Berg-Weger M, Meuser TM, Stowe J.
 J Gerontol Soc Work. 2013;56(3):201-18. doi: 10.1080/01634372.2013.764374.
 PMID: 23548142
 ARMT and coping, health/vision status, and **social support** measures were administered to 133 community-dwelling older adults. ...Higher readiness to cope with mobility transition and self-confidence related to **fall risk**, higher self-rated health/vision. ...

Exploring the Mediating Role of **Social Support** and **Fall** Efficacy on the Association Between Falls and Physical Activity: A Cross-Sectional Study in an Assisted-Living Population.
 Schott N, Tietjens M.
 J Aging Phys Act. 2019 Feb 1;27(1):53-60. doi: 10.1123/japa.2017-0378. Epub 2019 Jan 10.
 PMID: 29543104
 Mobility restriction as a consequence of a **fall** is a major issue in assisted-living facilities. Although many factors are related to falling, little is known about the relationship between falls, **social support**, falls efficacy, and physical activity. ...The d ...

Depressive symptomatology and **fall risk** among community-dwelling older adults.
 Hoffman GJ, Hays RD, Wallace SP, Shapiro MF, Ettner SL.
 Soc Sci Med. 2017 Apr;178:206-213. doi: 10.1016/j.socscimed.2017.02.020. Epub 2017 Mar 7.
 PMID: 28279573 [Free PMC article](#).
 RESULTS: A good-fitting model was found: Controlling for baseline (2006) physical functioning, vision, chronic conditions, and **social support** and neighborhood **social** cohesion, falls were not associated with subsequent DS, but a 0.5 standard deviation increase ...

A best practice **fall** prevention exercise program to improve balance, strength / power, and psychosocial health in older adults: study protocol for a randomized controlled trial.
 Gschwind YJ, Kressig RW, Lacroix A, Muehlbauer T, Pfenninger B, Granacher U.
 BMC Geriatr. 2013 Oct 9;13:105. doi: 10.1186/1471-2318-13-105.
 PMID: 24106864 [Free PMC article](#). Clinical Trial.

☐ Older people's perception of and coping with falling, and their motivation for **fall**-prevention programmes.
 80 Høst D, Hendriksen C, Borup I.
 Cite Scand J Public Health. 2011 Nov;39(7):742-8. doi: 10.1177/1403494811421639. Epub 2011 Sep 26.
 ihare PMID: 21948994
 Moreover, **elderly** individuals' coping strategies are not necessarily productive. **Social** networks and general practitioners can actively encourage older people to participate in **fall**-prevention programmes. Such programmes must **support** older people's nee ...

Influences of a Church-Based Intervention on Falls **Risk** Among Seniors.
 Briggs M, Morzinski JA, Ellis J.
 WMJ. 2017 Aug;116(3):161-164.
 PMID: 29323832
 METHODS: The 100 Healthy, At-**Risk** Families study team implemented 8 monthly educational health sessions promoting self-care and **social support**. ...Descriptive and comparison statistics were analyzed in Excel and Statistical Package for **Social** Sciences. ...
