THESIS

What is the benefit of tourism for local people? Well, Tourism is now a huge contributor to the economies of most countries. Tourism industries can bring money, job vacancy and advancement especially to developing regions. However, this money often goes into the pockets of foreign investors, and only rarely benefits for local people.

ARGUMENTS

Tourism industries will not give much benefit for local people if, for example, multinational hotel chains don't care about the surrounding nature when they build new hotels. This can cause many social, cultural and geographical problems. Some local people may get job and money from that International hotel chain. However in case of missing that opportunity, some of them still have their own environment.

Moreover, some facts show that tourists tend to go, visit and spend their money in restaurants, bars and even luxury hotels of that multinational chains. They less go to such places; restaurant, bar, hotel, shop which are owned by local people. This can prevent the local people's business from becoming even larger.

Most important thing, tours or excursions of tourism have little effect on nature. Even it can disrupt or destroy ecosystems and environments, and if it does, the local people will get the risk.

\

RECOMMENDATION

So the local government policies should be put in place to ensure that tourism will make the benefit spreading widely. The policies should guarantee that tourism will not cause any harm to any local people or places.

The important of brushing teeth at night.....

Thesis : keeping the healthy teeth at night is very important.

This is for several reason.

Argument : There are some negative impact will happen if we don't brush our teeth before sleeping. 1. first bacteria will damage our teeth. Because the bacteria at night will become active due to condition of the mouth that is different with saliva when the body sleep at night. Ok, when brushing teeth is forgotten it means you let your teeth are damaged by bacteria and teeth will increase the risk of having cavities.

2. Second, it causes bad breath in the morning. When wake up in the morning because there are some food left in the teeth. If we brush teeth before going to bed, we will get fresher breath at the time we get up.

Recomendation : Based on the reason above, we should keep the teeth health by brushing the teeth every night, so we will be avoided from any problems for teeth and mouth.
